

# PEHMOHEIJASTIMET

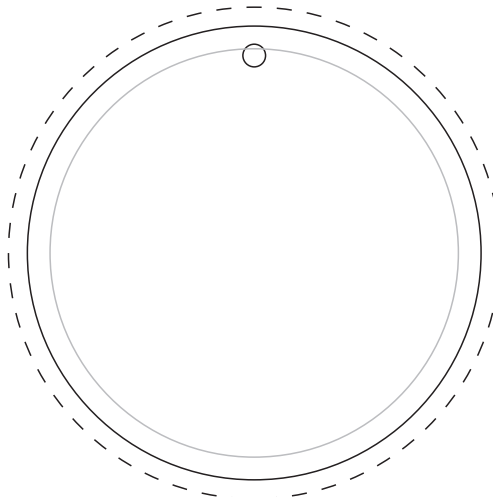

## Artwork instructions for personal safety reflectors

Tästä tiedostosta (3 sivua) voit katsoa eri muottien koot ja muodot valmiille heijastinmuodoille. Voit myös teettää oman muotin. Musta yhtenäinen viiva on heijastimen ulkomuoto, harmaa viiva vinyylisaumauksen sisäraja. Älä aseta tärkeitä elementtejä harmaaan viivan ulkopuolelle. Toimita aineistosi aina CMYK väreissä, vektorimuodossa (PDF, EPS).

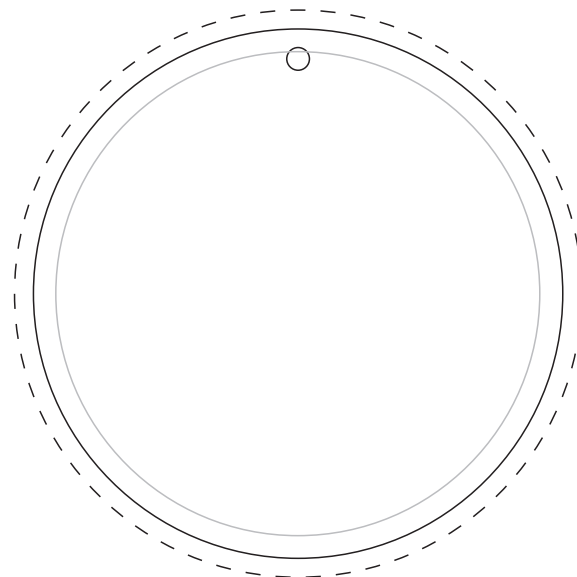

This file (3 pages) includes all of our pre-existing common shapes for personal safety reflector products. A custom mold is also an option. The solid black line is the outer shape of the reflector. The gray inner line is the vinyl seam boundary. Do not place critical elements outside of the solid gray line. Provide all artwork in vectorized format, in CMYK color only.
