

Full-Color Printed Microfiber Cloth

Deliver your artwork as a vector PDF file in CMYK colors. Convert the texts to paths (right-click > “Convert to path”) and Include (“Embed”) the images in the file. The image resolution for photos is 300 dpi.

The artwork must have 10mm bleeds for movement throughout; do not place critical elements closer to the edges. Sublimation-printed microfiber cloths have a waffle edge. Thicker Opticlean microfiber cloths with straight edges and full-color printing with longer production time are also available on order.

Microfiber Cloth 10 x 15cm
Artwork size 11 x 16cm

Microfiber Cloth 17 x 18cm
Artwork size 18 x 19cm
